Glenwood Springs, CO 81601

RE: Two Rivers Community School

11630.000

Dear Adriana:

After a careful and thorough review of the above-mentioned construction documents, drawings, specifications, plans, etc. I have determined, to the best of my ability and knowledge, that no asbestos-containing material (ACM) was specified as a building material in any construction document for the building and that no asbestos-containing material was used as a building material in the building.

Sincerely,

Hord Coplan Macht

Adele J. Willson, AIA, LEED AP
